(*) Mail Participation Rate is defined as the percentage of forms mailed back by households that received them. This rate does not include forms returned by the Post Office as "undeliverable."

(**) Mail Response Rate is defined as the percentage of total forms mailed back by households. This rate includes forms returned by the Post Office as "undeliverable."

IMPORTANT NOTE: Lower percentage scores may be due to a high number of PO boxes that do not receive home delivery, which will be accounted for during Non-Response Follow Up.
